

WHAT OUR TOT PARTICIPANTS SAY:

“The materials are easily adaptable so you can teach the entire course or sub-divide the content into shorter classes that focus on specific P&P factors.”

“I really liked how adaptable the course is. You can teach it to young people, parents and caregivers, other professionals, faith-based groups, or just about anybody in your community.”

“As a TOT student, I received materials for both a live or a virtual presentation of the course. Everything you need, including videos, practice activities, workbook descriptions, and engaging slides are ready to use. Access to the training materials is worth the price of the course.”

“I really enjoyed being with such a diverse group of people. Sharing practice ideas, experiences with clients, and getting to actually know one another was an unexpected benefit. I will stay connected to many of them.”
